

“Laura did an amazing job of finding me a condo that fit exactly what I was looking for. Her extensive knowledge of the area and the outside research she did for me made the process very fast and easy since we didn’t waste time looking at properties that she knew I wouldn’t be interested in. She was very low-pressure about making the sale by letting me move at my own pace.

As a first time buyer, I wasn’t sure exactly how the process worked after finding a place to put an offer on, so Laura helped me every step of the way, from the initial offer through the mortgage approval and closing. I always felt very comfortable with how things were working, and anytime something came up she would contact me right away and we’d resolve the issue ASAP. I couldn’t have asked for a better experience!”
